

ENROLLMENT TIP SHEET FOR ON DEMAND PRODUCT FOR PATIENTS

Amgen Safety Net Foundation offers shipment in advance of administration for certain physician administered medications. Under this model, providers complete a On Demand Product Request Form after the patient has been enrolled to the Foundation. Amgen Safety Net Foundation ships On Demand products directly to the provider in advance of administration.

Products available On Demand: Blincyto® (blinatumomab) for injection and IMLYGIC® (talimogene laherparepvec).
