Amgen Safety Net Foundation may be able to help

Amgen Safety Net Foundation is a nonprofit patient assistance program that helps qualifying uninsured patients access Amgen medicines at no cost. Your patient may be able to receive free Amgen medications if they meet the following eligibility requirements:

- Resident of the US or its territories
- Satisfy the income eligibility requirements below
- Have no or limited drug coverage
- Do not have any other insurance or financial support options
- For Medicare Part D patients, meet all plan requirements, guidelines, prior authorizations required by the Standard Medicare plan, and demonstrate an inability to afford their Amgen medication.

If you have this many people in household...	...your income must be at or below this much each year
1	\$60,300
2	\$81,200
3	\$102,100
4	\$123,000
Each Additional Person	Add \$20,900

How does my patient apply?

Step 1: Access the Patient Application Form for Prescription Products

- Go to www.amgensafetynetfoundation.com and click on the **Forms** tab, or

Step 2: Have your patient complete pages 1-3 of the application

- If your patient needs help filling out this form, they can call us at **1-888-762-6436** to speak to one of our Patient Assistance Counselors

Step 3: Send the completed application

- Review the application to make sure you and your patient have filled in every field
- Fax the application along with the script to **1-866-549-7239**

When will I find out if my patient is approved?

Once we receive and process the completed application and any requested supporting documents have been received and processed, the patient and the provider will be notified of the enrollment decision.

Missing information or an incomplete application will delay an enrollment decision.

How does my patient receive medication?

For Corlanor®, Enbrel®, Repatha®, and Sensipar®, once a patient has been enrolled, they will be contacted by Amgen Safety Net Foundation to provide consent for shipment. Prolia® is shipped directly to the provider.
